

# THE OF intratone SOLUTION

## services

By contacting your manager, you can take advantage of the following services:

- Allow access to the residence for your relatives or service providers (nurse, personal assistance service, tradesman, etc.) using a temporary or permanent code. You can also choose the access dates and times you wish to authorise.
- Display (or not) your name on the intercom at set times so that you are not disturbed. Ask for a call code to be set up.

## cost effective

Without wires and handsets, you reduce installation costs and get up and set up quickly.

**Your housing manager manages everything remotely and in real time:**

- name change, code request, badge modification, deletion, etc...

## eco-friendly

**You are helping to reduce wastes:**

- less plastic and electronic components,
- miles of copper cable avoided,
- less travel thanks to remote updating.

## accessibility

Intratone equipments help seniors and people with reduced mobility to remain at home.

Adapted to each user:

- mobile phone and tablet for the most connected,
- wired or wireless landline phones for other users.

## easy to install and non-intrusive

No handset installed in your home.

### HOW TO RECEIVE A CALL WITH intratone?

All you have to do is choose the device you want to answer on (landline, mobile, tablet). Probably the one closest to you at the time...!

You choose to open the door (or not) to your visitor without having to move!

\*Download the « My intercom intratone » free app to receive video calls on all your devices.
